Net realized exchange gains	(308)	(248)

Note 1: Higher depreciation in FY2011 was mainly due to higher depreciation effects for new property, plant and equipment during the year.

Note 2: The FY2010 allowance was mainly provided for a single customer who had experienced working capital distress since the economic turmoil started in 2008. No further allowance is required since 31 March 2010. Please refer to page 12 under "Other Operating Loss".

Note 3: Lower interest income mainly due to the early redemption of principal protected structured deposits and lower interest rates offered by the financial institutions during the year.

Note 4: Higher interest expense was mainly due to the trust receipt loans arrangements made during the year ended 31 March 2011.

1(b)(i) A balance sheet (for the issuer and the group), together with a comparative statement as at the end of the immediately preceding financial year.

- 4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.**

Except as disclosed under note 5, the Group has adopted the same accounting policies and methods of computation for the current reporting period as those used in preparing the audited consolidated financial statements for the year ended 31 March 2010.

- 5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

In the current year, the Group and the Company have adopted all the new and revised International Financial Reporting Standards ("IFRSs") that are relevant to its operations and effective for its accounting year beginning on 1 April 2010. IFRSs comprise International Financial Reporting Standards; International Accounting Standards ("IAS"); and Interpretations. The adoption of these new and revised IFRSs did not result in significant changes to the Group's accounting policies and amounts reported for the current year and prior years except as stated below.

Classification of Land Leases

The adoption of the amendment to IAS 17 "Leases" has resulted in a change in accounting policy for the classification of leasehold land of the Group. Previously, leasehold land, which title is not expected to pass to the Group by the end of the lease term was classified as an operating lease and stated at cost less accumulated amortization. In accordance with the amendment, leasehold land is classified as a finance lease and stated at cost less accumulated depreciation if substantially all risks and rewards of the leasehold land have been transferred to the Group. The Group has reassessed the classification of unexpired leasehold land and land use rights as at 1 April 2010 on the basis of information existing at

the inception of those leases, and recognized the leasehold land in Hong Kong as finance lease retrospectively. As a result of the reassessment, the Group has reclassified certain prepaid land lease payments and land use rights from operating lease to finance leases. The amendment does not apply to the leasehold land disposed of by the Group in prior years.

Amendments to IAS 17 has been applied retrospectively and resulted in changes in the consolidated amounts reported in the financial statements as follows:

	The Group	
	As at 31 March	
	2011	2010
	HK\$'000	HK\$'000
Increase in property, plant and equipment	4,607	3,377

 - (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.**

Valuetronics is an Electronic Manufacturing Service ("EMS") provider focusing on the design and development of products that meet the ever-changing needs of customers. We are the preferred choice of certain successful global companies for Original Equipment Manufacturing ("OEM") and Original Design Manufacturing ("ODM") services, with core competencies ranging from tool fabrication, injection moulding, metal stamping, machining, surface mount technology ("SMT") and finished product assembly on full turnkey basis. In 2010, Valuetronics has enhanced its existing business model and extended its value chain through its acquisitions of exclusive brand licensing agreements to use the "Whirlpool", "Maytag" and "Amana" brands, for a portfolio of home comfort appliances, which included portable air purifiers, portable electric fans and portable heaters in the North American market.

Review – Full year results ended 31 March 2011 ("FY2011") vs Full year results ended 31 March 2010 ("FY2010")

Revenue

Revenue increased by 73.4% or HK\$834.3 million from HK\$1,136.1 million in FY2010 to HK\$1,970.4 million in FY2011. Such increase was mainly attributable to the significant growth from OEM and ODM major customers. Our Licensing business recorded HK\$33.4 million sales in FY2011.

OEM revenue increased by 75.8% to HK\$1,617.4 million (FY2010: HK\$920.0 million) mainly contributed by the significant increase in demand from a number of major customers.

ODM revenue increased by 47.9% to HK\$319.6 million (FY2010: HK\$216.1 million), mainly attributable to additional sales orders and significant growth from our major customers.

Gross profit and gross profit margin

Gross profit increased by 74.6% to HK\$309.7 million (FY2010: HK\$177.3 million) and gross profit margin remained stable at 15.7% (FY2010: 15.6%). There was no significant change in gross profit margin as similar product mix was achieved during the year.

Other income

Other income recorded for FY2011 was mainly as a result of tooling income of HK\$4.0 million (FY2010: HK\$3.5 million), gain on disposals of plant and equipment of HK\$1.0 million (FY2010: HK\$0.3 million), net foreign exchange gains of HK\$0.3 million (FY2010: HK\$0.2 million), interest income of HK\$0.4 million (FY2010: HK\$0.8 million), income from insurance claim of HK\$0.4 million (FY2010: Nil) and income from sales of scrap materials of HK\$1.0 million (FY2010: HK\$0.7 million).

Selling and distribution costs

Selling and distribution costs increased by 62.2% to HK\$68.8 million (FY2010: HK\$42.4 million). Such increase was driven mainly by the increase in salaries and allowances for our marketing staff as well as the increase in sales commissions payable to our sales representatives. The increase is in line with the overall increase in revenue and headcounts for both EMS and Licensing businesses.

Administrative expenses

Administrative expenses increased by 72.7% to HK\$110.3 million (FY2010: HK\$63.9 million), mainly contributed by the increase in salaries and bonus for our administrative and corporate employees as a result of business recovery during the year. The increase is consistent with the increase in headcount from FY2010 for both of the EMS and Licensing Businesses.

Other operating loss

The FY2010 other operating loss represented the allowance for receivables provided for a single customer who had experienced working capital distress since the economic turmoil started in 2008. No further allowance is required after 31 March 2010.

Profit before tax

As a result of the above, profit before tax increased by 106.7% to HK\$136.6 million in FY2011 (FY2010: HK\$66.1 million).

Financial position

The Group's available-for-sale financial assets represent the Citigroup's Senior Notes, which were fully redeemed at original cost during the year.

The Group's inventories increased by HK\$83.1 million from HK\$129.9 million as at 31 March 2010 to HK\$213.0 million as at 31 March 2011. The increase was in line with the overall growth in customers' orders.

The Group's trade receivables increased by HK\$157.1 million from HK\$273.7 million as at 31 March 2010 to HK\$430.8 million as at 31 March 2011. This is in line with the significant growth in sales from a number of major customers, who were granted longer credit terms.

The Group's trade payables increased from HK\$229.8 million as at 31 March 2010 to HK\$302.4 million as of 31 March 2011. The increase in trade payables resulted from the overall growth in purchase and to cope with the increase in sales orders and demand from customers during the year.

The Group's bank borrowings as at 31 March 2011 amounted to HK\$38.0 million, arising from trust receipt loans for working capital purposes.

Statement of cash flows

Cash and cash equivalents held by the Group stood at HK\$136.2 million as at 31 March 2011 (31 March 2010: HK\$139.9 million). This was mainly contributed by the higher working capital requirements for the purpose of additional inventories, trade payables and trade receivables as well as the additions of property, plant and equipment to cope with increase in demands and orders during the year.

The Group currently places most of its cash as bank deposits with reputable financial institutions in Hong Kong.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

In FY2011, the Group experienced strong demand from its major customers, driven by the significant increase in their sales orders and the launch of new products, as a result of an improved global economy since the global financial crisis which started in late 2008. While our growth in FY2011 was partially driven by such exceptional growth the sustained growth in our OEM and ODM businesses also contributed to the overall growth of the Group. The Group is expected to benefit from the launch of new products by customers and to continue to enjoy the growth momentum of its major OEM and ODM customers.

The Licensing business which was first launched with air purifier in April 2010 had contributed positively to the Group's revenue in FY2011. Upfront expenses such as staff cost, product and packaging design and product marketing had adversely affected the operating result of licensing business in FY2011. The Group has further secured the rights to manufacture, design and distribute two additional home comfort appliances (fans & heaters) in September 2010 and expects this enlarged product portfolio would continue to grow and contribute positively to its revenue and improve the marginal return of Licensing business in FY2012.

Despite the improved global economy, we will continue to face challenges in our operations such as inflation and increase in minimum wage in the PRC and fluctuations in foreign currencies in the current financial year. We will however, continue with our efforts in improving our fundamentals, which include our design and development capabilities, production efficiencies and inventory management. In addition, we will continue our efforts in business development to enrich our customer base and product portfolio so as to explore new business opportunities.

Barring unforeseen circumstances, the directors expect the Group to remain profitable.
